The trip

For 7 nights aboard the M/Y Sinaistar we sail to the offshore reefs of the Egyptian Red Sea: Brothers, Daedalus and Elphinstone.

September is an excellent time for these reefs: schools of hammerheads at Daedalus, possible silky and oceanic whitetip sharks at all three sites, and good chances of manta rays and other pelagics. And not just the big animals: the reefs are colorful and full of life, with plenty to enjoy all week.
